	<p>Portfolio rebalancing due to short term defensive considerations: Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. The Scheme may actively deviate from the stated asset allocation pattern outlined in the SID during extenuating circumstances. These instances may be beyond the control of the fund manager & the AMC and hence may require such deviations. Such changes in the investment pattern will be transitional in nature and will be undertaken as defensive considerations only in accordance with Para 1.14.1.2 of SEBI Master circular for Mutual Fund and as amended from time to time. Defensive considerations may be determined by the fund manager and /or AMC from time to time. In case of deviations on account of exogenous factors, the fund manager will endeavour to rebalance the Scheme within 30 calendar days from the date of such deviation. The intention being at all times to seek to protect the interests of the Unit holders.</p> <p>Portfolio rebalancing due to passive breaches: In case of passive deviation from the asset allocation pattern or various prudential limits prescribed under SEBI (Mutual funds) regulations, 1996 and circulars issued thereunder the AMC shall follow process specified in Para 2.9 of SEBI Master circular for Mutual Fund as amended from time to time. In line with the circular, in the event of deviation from the mandated asset allocation limits mentioned in the SID or the prudential limits due to passive breaches such as corporate action, substantial rise/ fall in the price of an underlying scrip, maturity of any underlying security, large redemptions, etc., the portfolio would be rebalanced within 30 business days from the date of deviation. Where the portfolio is not rebalanced within mandated timelines, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the Scheme is not rebalanced within aforementioned mandated plus extended timelines AMC shall adhere to the requirements as laid down in the aforesaid SEBI circular. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.</p>	
Investment Strategy	<p>The scheme follows an active investment strategy.</p> <p>The Scheme will invest predominantly in Equity and Equity Related Instruments of Large Cap companies with strong growth and sustainable business models, whilst managing risk.</p> <p>The portfolios will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include companies having robust business models and enjoying sustainable competitive advantages as compared to their competitors.</p> <p>The Schemes portfolio will be managed actively, with an objective to provide to the investor, a diversified portfolio of strong growth companies, reflecting our most attractive investment ideas, at all points in time.</p> <p>The Scheme by utilizing a holistic risk management strategy will endeavour to manage risks associated with investing in equity markets. The Scheme has identified</p>	

	<p>the following risks and designed risk management strategies, which are embedded in the investment process to manage these risks:</p> <ul style="list-style-type: none"> (i) Quality risk – Risk of investing in unsustainable/weak companies (ii) Price risk - Risk of overpaying for a company (iii) Liquidity risk- High impact cost of entry and exit (iv) Volatility risk –Volatility in price due to company or portfolio specific factors (v) Event risk - Price risk due to a company/sector specific or market event. <p>For details on derivative strategy, kindly refer section – I Part – II C of the SID of the Scheme.</p>														
Risk Profile of the Scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in equity and equity related securities, derivatives, foreign securities, debt securities, securitized debt, debt instruments having credit enhancements, money market instruments, short selling and securities lending.</p> <p>Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity in equity and debt investments. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc. to the extent of the Scheme's investments in such securities.</p>														
Risk Mitigation Strategies	<p>The Fund, by utilizing a holistic risk management strategy, will endeavor to manage risks associated with investing in equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.</p> <p>The Fund has identified following risks of investing in equities and designed risk management strategies, which are embedded in the investment process to manage such risks.</p> <table border="1"> <thead> <tr> <th>Risk & description specific to equities</th><th>Risk mitigants/ Management strategy</th></tr> </thead> <tbody> <tr> <td>Quality risk - Risk of investing in unsustainable/ weak companies.</td><td>Investment universe carefully selected to only include high quality businesses.</td></tr> <tr> <td>Price risk - Risk of overpaying for a company.</td><td>"Fair value" based investment approach supported by comprehensive research</td></tr> <tr> <td>Concentration risk</td><td>Invest across the industries / sectors</td></tr> <tr> <td>Liquidity risk - High impact costs.</td><td>Control portfolio liquidity at portfolio construction stage</td></tr> <tr> <td>Volatility - Price volatility due to company or portfolio specific.</td><td>Control risk class/ sector/ stock exposures to control overall factors portfolio volatility</td></tr> <tr> <td>Event risk - Price risk due to company or sector specific event.</td><td>Understand businesses to respond effectively and speedily to events Usage of derivatives: Hedge portfolios, if required, in case of predictable events with uncertain outcomes.</td></tr> </tbody> </table> <p>For more details, please refer SID.</p>	Risk & description specific to equities	Risk mitigants/ Management strategy	Quality risk - Risk of investing in unsustainable/ weak companies.
