

AXIS CONSERVATIVE HYBRID FUND

An open ended hybrid scheme investing predominantly in debt instruments
(Formerly known as Axis Regular Saver Fund)

About the Fund

Axis Conservative Hybrid Fund is categorized as a conservative hybrid fund which allocates in a combination of debt and equity. It is ideally suited for investors who want to generate a steady income through debt investments and wants to add some alpha to their portfolio via equity.

Combined portfolio helps in multi-asset allocation with a single fund

Low correlation among asset classes prevents downside risk

Potential for higher return than traditional debt funds due to equity exposure

#The above framework is broadly indicative and the fund manager may change the framework depending on the market conditions

Why invest in Axis Conservative Hybrid Fund?

- Potential for higher return than debt. Lower risk than pure equity oriented scheme.
- The fund is ideally suited for conservative investors who are looking for slightly higher returns than traditional fixed income funds.
- It is suitable for investors who want a flavor of both asset classes with relatively lower risk
- Targets regular income through debt portion.

Investment approach

- › **Debt Approach** – The fund is actively managed and has a diversified portfolio. It aims to capture opportunities in the yield curve spreads in the short duration segment. It aims to have a target portfolio duration of 1-7 years.
- › **Equity Approach** – The fund follows a bottom up stock picking approach with a bias towards large cap stocks. The emphasis is on quality stocks with sustainable growth potential.
