

AXIS INNOVATION FUND

(An open ended equity scheme following innovation theme)

*w.e.f 13th June 2024, the fund name has been changed to Axis Innovation Fund and the fundamental attribute will be revised.

About the Fund

An open ended equity scheme following innovation theme

Axis Innovation Fund is a thematic fund with a multi-cap investment approach. The fund can also take exposure to the global markets upto 30% of its portfolio.

Invest across Value chain
There are opportunities across the value chain, hence fund invest in companies that are part of the value chain

Innovative themes to sectors
Focus on identifying current innovative themes, then narrow it down to specific sectors.

Long-term perspective
Some companies may not be profitable but hold significant potential in the long run

*The above framework is broadly indicative and the fund manager may change the framework depending on the market conditions

Why a Innovation Fund?

- In our fast growing economy, there is one thing which is constant and that is "change". We have new technologies, new business models, changes in consumer behaviour, global events and regulatory changes which creates potential for mispricing.
- Financial markets are slow in recognizing these opportunities and a innovation fund may be able to see an unanticipated change which may be overlooked otherwise.

Fund Manager Views

- With global rate cycle changed to easing, interest in high growth disruptive stocks has increased in line with global indices viz. Nasdaq100. Valuations across PE funded as well as potential IPO companies which had come off, are gradually recovering on a selective basis taking into consideration relative growth and earnings delivery of these companies, post listing in the markets. Also, there is keen focus on competitive positioning and stability of business model in terms of profitability as well as cash flow generation.
- Fund follows a Multicap approach, predominantly large cap with active allocation calls on mid and small cap. The global portion is in large caps. Overall retaining our quality bias and investment philosophy.
- The fund endeavours to target Innovative growth opportunities across the entire value chain both in India & abroad. Through a multi cap approach the fund will focus on identifying current innovative themes (not just in India but globally too), then narrow it down to specific sectors. The endeavour is to invest from a long-term perspective, as some companies may not be profitable but hold significant potential in the long run.
- Currently, the fund is focusing on Industrial product, technology (hardware, software, semiconductors, EMS), Healthcare, Auto (EV), Renewables and other such innovative themes.
