

# The power of 3, in every innings.

Invest in large cap, mid cap, and small cap stocks, in one investment.

## AXIS MULTICAP FUND

(An open-ended equity scheme investing across large cap, mid cap, and small cap stocks)

**#ThePowerPackedFund\*\***

\*\*Potential to benefit from all the three viz large, mid & small market cap. The scheme does not guarantee any returns.

### About the Fund

The fund aims to generate capital appreciation by investing in a diversified portfolio of equity & equity related instruments within a predefined construct of large caps, mid caps and small caps. To ensure diversification of investment across market caps, the scheme will invest a minimum of 25% each in Large, Mid and Small Cap stocks, with the balance 25% flexibility to the fund manager.

#### Large Caps

Target leaders in larger markets. This provides stability to the portfolio

#### MidCaps

Capture opportunities moving from unorganized to organized segment of the market

#### Small Caps

Target companies which have the potential to become leaders

\*The above framework is broadly indicative and the fund manager may change the framework depending on the market conditions

### Investment Philosophy

#### What Do We Look for?

- Aims for stable returns
- Managed risk
- Opportunity to capture budding companies
- Balanced allocation in multiple segments
- Capture the best ideas regardless of size
- Capture the lifecycle of a company

### Fund Manager's view

- Axis Multicap Fund is intended to invest in high-conviction ideas across market cap. The fund uses bottom-up stock selection process and invest in high quality and high ROE businesses with steady earnings (large caps) and with a blend of niche companies as well as scalable business models backed by strong fundamentals (mid & small caps).
- The current focus is more on Banks, Auto ancillaries, hospitals and power equipment.
- we believe selected pockets will do well and hence we have been consolidating the portfolio.
- While from a valuation perspective, we may favour large cap over mid/small cap currently, however, given the bottom-up approach to stock selection, the fund will look for opportunities irrespective of the market cap segment.
- We believe that domestic growth stories will remain resilient, especially for companies delivering strong earnings growth. Portfolio tilt is towards companies with higher dependence on domestic markets/consumers and expanding addressable market opportunities.
