

The power of 3, in every innings.

Invest in large cap, mid cap, and small cap stocks, in one investment.

AXIS MULTICAP FUND

(An open-ended equity scheme investing across large cap, mid cap, and small cap stocks)

#ThePowerPackedFund**

**Potential to benefit from all the three viz large, mid & small market cap. The scheme does not guarantee any returns.

About the Fund

The fund aims to generate capital appreciation by investing in a diversified portfolio of equity & equity related instruments within a predefined construct of large caps, mid caps and small caps. To ensure diversification of investment across market caps, the scheme will invest a minimum of 25% each in Large, Mid and Small Cap stocks, with the balance 25% flexibility to the fund manager.

Large Caps

Target leaders in larger markets. This provides stability to the portfolio

MidCaps

Capture opportunities moving from unorganized to organized segment of the market

Small Caps

Target companies which have the potential to become leaders

*The above framework is broadly indicative and the fund manager may change the framework depending on the market conditions

Investment Philosophy

What Do We Look for?

- Aims for stable returns
- Managed risk
- Opportunity to capture budding companies
- Balanced allocation in multiple segments
- Capture the best ideas regardless of size
- Capture the lifecycle of a company

Fund Manager's view

- Axis Multicap Fund is intended to invest in high-conviction ideas across market cap. The fund uses bottom-up stock selection process and invest in high quality and high ROE businesses with steady earnings (large caps) and with a blend of niche companies as well as scalable business models backed by strong fundamentals (mid & small caps).
- This fund is primarily exposed to consumer-oriented companies especially in Capital goods, Autos, Hospitals, fintech/all platform and Realty.
- The fund also has a good blend of B2B-oriented sectors like Auto Ancillaries and EMS, although we have trimmed our significant overweight to the IT sector.
- While from a valuation perspective, we may favour large cap over mid/small cap currently, However, given the bottom-up approach to stock selection, the fund will look for opportunities irrespective of the market cap segment.
- We believe that domestic growth stories will remain resilient, especially for companies delivering strong earnings growth. Portfolio tilt is towards companies with higher dependence on domestic markets/consumers and expanding addressable market opportunities.
