

AXIS GLOBAL INNOVATION FUND OF FUND

An open ended fund of fund scheme investing in Schroder International Selection Fund Global Innovation

Outlook

- ▶ While the macro environment remained broadly stable, investor attention increasingly focused on rising perceptions of credit risk in the US following stress in the auto lending sector. At the same time, ongoing uncertainty around global trade policy - particularly between the US and China - continued to cloud market sentiment.
- ▶ While awareness of the macro backdrop remains important, the fund, as its name suggests, continues to be driven by identifying innovative companies whose growth potential we believe is underappreciated by the market.

About the Fund

The fund aims to invest in companies that are either disrupting their industries, enabling other companies to innovate, or adapting successfully to changes in their markets.

The fund is structured around several key themes, including AI and Automation, Digital Finance, Healthcare Innovation, Sustainable Nutrition, Green Economy, Future Connectivity, Digital Transformation, and New Consumer.

The fund maintains a diversified portfolio across different regions and sectors.
