

AXIS CONSUMPTION FUND

(An open ended equity scheme investing in consumption theme.)

Registration Number: MF/061/09/02

About the Fund

Axis Consumption Fund is an open-ended thematic equity strategy that invests in companies benefiting from India's consumption-led growth story. The fund seeks to generate long-term capital appreciation through a diversified portfolio of businesses operating across consumption and consumption-related sectors.

Key Attributes

Broad Consumption Universe:

The fund invests across a wide spectrum of consumption-linked sectors, including FMCG, Automobiles, Consumer Durables, Retail, Realty, Telecom and related businesses, providing diversified exposure to India's evolving consumption patterns.

Multi-Cap Opportunity Set:

Actively allocates across large-cap, mid-cap and small-cap companies, enabling participation in established leaders as well as emerging consumption franchises.

Quality-Focused Stock Selection:

Follows a bottom-up investment approach to identify businesses with strong fundamentals and sustainable long-term growth potential.

Fund Manager's Views

While inflationary pressures and global uncertainties continue to influence consumer sentiment, domestic consumption trends remain broadly resilient. Demand is particularly strong in premium segments, supported by higher-income consumers whose spending patterns have remained relatively stable.

The fund remains overweight on premium consumption themes, including leisure and tourism, retail, healthcare services, telecom, select consumer franchises, automobiles and EV-related opportunities. The portfolio is focused on businesses with strong brands, pricing power and structural growth drivers.

Given the divergence in demand trends across consumption categories, the fund remains selective in its positioning. Exposure is tilted towards companies catering to premium and resilient demand segments, while maintaining a cautious stance on categories that are more sensitive to inflation and discretionary spending pressures.

Data as on 30th September 2026
