

AXIS INNOVATION FUND

(An open ended equity scheme investing in innovation theme.)

Axis Mutual Fund - MF/061/09/02

About the Fund

Axis Innovation Fund is a thematic multi-cap strategy that seeks to capture opportunities arising from innovation-led disruption across technologies, business models and consumer behaviour. The fund can also invest up to **30% of its portfolio globally**, providing access to innovative businesses beyond India.

Key Attributes

Capturing Emerging Opportunities:

Seeks to identify innovation-driven opportunities arising from new technologies, evolving business models, regulatory changes and changing consumer behaviour that may not yet be fully recognised by the market.

Investing Across the Innovation Value Chain:

Rather than focusing on a single sector, the fund invests across the broader innovation ecosystem and value chain, capturing opportunities created by technological advancements and disruptive trends.

Theme-Driven Stock Selection:

The investment process begins by identifying emerging innovation themes and then narrowing them down to sectors and companies best positioned to benefit from those trends.

Long-Term Innovation Mindset:

The fund focuses on businesses with significant long-term potential and may invest in companies that are not currently profitable but possess scalable business models and disruptive growth opportunities.

Fund Manager's Views

Market interest remained towards innovation driven stocks and sectors especially linked to AI and semiconductors, as is visible in global markets like Taiwan, Korea and parts of Nasdaq100.

Even domestically interest has been high across companies linked to AI, Semiconductors and Data Centres including power equipment linked capital goods companies.

Also, platform businesses that can demonstrate consistent profit and cash flow visibility as they scale up, have been rerated further in a market environment that is hit by lower growth and potentially sticky inflation, that could dampen growth outlook further.

Fund follows a Multicap approach, with focus on capturing growth from innovation across market cap, sectors and geographies.

Currently, the fund is positioned more than 50% in Platform and AI ecosystem.

The fund endeavours to target Innovative growth opportunities across the entire value chain both in India & abroad. The focus is on innovative themes like platform businesses, Hi-tech manufacturing, AI ecosystem, financial digitalization, Tech innovation etc. The endeavour is to invest from a long-term perspective, as some companies may not be profitable but hold significant potential in the long run.
