## Part II. INFORMATION ABOUT THE SCHEME

### A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation pattern will be:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of overseas ETFs wherein the underlying investments comprise of US treasury securities*	95	100
Debt and Money market instruments	0	5

\* residual maturity of the underlying securities in which investments shall be made shall not exceed 15 years.

The Scheme shall invest in Overseas Exchange Traded Funds ("ETFs") in accordance with Para 12.19 of SEBI Master Circular for Mutual Funds and as amended by SEBI from time to time.

Under normal circumstances, at least 95% of the Net assets of the Scheme will be invested in Units of overseas ETFs subject to the availability of Eligible Investment Amount.

The indicative list\* of overseas Exchange Traded Funds in which the Scheme proposes to invest is as follows:

1. iShares Short Treasury Bond ETF
2. iShares 1-3 Year Treasury Bond ETF
3. SPDR® Bloomberg 1-10 TIPS ETF
4. iShares 7-10 Year Treasury Bond ETF

\*The list of overseas Exchange Traded Funds provided is indicative and the Scheme can invest in any other overseas Exchange Traded Fund which shall have similar investment objective, investment strategy and benchmark.

Investments made for the purpose of ensuring liquidity (debt and money market instruments) are those that fall within the definition of liquid assets.

In line with Para 12.19.1.2 of SEBI Master Circular for Mutual Fund, Mutual Funds can make investments in overseas ETFs subject to a maximum of US \$300 million within the overall industry limit of US \$ 1 billion or such other limits as prescribed by SEBI from time to time.

The intended amount for investment in overseas ETFs is US \$100 million. The said limits shall be valid for a period of six months from the date of closure of NFO. Thereafter the unutilized limit, if any, shall not be available to the Mutual Fund for investment in Overseas ETFs and shall be available towards the unutilized industry wide limits. Further, investments after the period of six months from the date of closure of NFO will follow the norms for ongoing schemes. Para 12.19.1.3 of SEBI Master Circular for Mutual Funds has clarified that the aforesaid limits are soft limits for investment in overseas securities for purpose of reporting only on a monthly basis to SEBI.

The cumulative gross exposure through units of Overseas ETFs and Debt and Money market instrument shall not exceed 100% of the net assets of the Scheme in accordance Para 12.24 of SEBI Master Circular for Mutual Funds. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

The Scheme shall not invest in REIT and InVITs, Securitized Debt, Repo in Corporate Debt Instruments, Derivatives, Credit Default Swaps, Stock Lending, debt instruments having Structured obligations / Credit enhancements and instruments with special features as specified in Para 12.2 of SEBI Master Circular for Mutual Fund. The Scheme shall not carry out short selling. The Scheme will be investing in Overseas ETF only and not in overseas securities.

### Portfolio rebalancing due to short term defensive considerations:

Subject to the SEBI MF Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and

economic factors. The Scheme may actively deviate from the stated asset allocation pattern outlined in the SID and may take higher allocation in debt and money market during extenuating circumstances which may include NFO closure, substantial subscription/redemption, adverse market conditions etc. These instances may be beyond the control of the fund manager & the AMC and hence may require such deviations. Such changes in the investment pattern will be transitional in nature and will be undertaken as defensive considerations only in accordance with Para 1.14.1.2 of SEBI Master circular for Mutual Fund and as amended from time to time. Defensive considerations may be determined by the fund manager and/or AMC from time to time. In case of deviations on account of exogenous factors, the fund manager will endeavor to rebalance the scheme within 30 calendar days from the date of such deviation. The intention being at all times to seek to protect the interests of the Unit holders.

**Portfolio rebalancing due to passive breaches:**

In case of passive deviation from the asset allocation pattern, the AMC shall follow process specified in para 2.9 of SEBI Master circular as amended from time to time. In line with the circular, in the event of deviation from the mandated asset allocation mentioned in the Scheme Information Document due to passive breaches, the portfolio would be rebalanced within 30 business days from the date of deviation. Where the portfolio is not rebalanced within mandated timelines, justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the Scheme is not rebalanced within aforementioned mandated plus extended timelines AMC shall adhere to the requirements as laid down in the aforesaid SEBI circular. However, at all times, the portfolio will adhere to the overall investment objective of the scheme.

## **B. WHERE WILL THE SCHEME INVEST?**

The corpus of the Scheme, will be investing in units of overseas ETFs wherein the underlying investments comprise of US treasury securities.

**The indicative list of overseas exchange-traded funds are as follows:**

- iShares Short Treasury Bond ETF
- iShares 1-3 Year Treasury Bond ETF
- SPDR® Bloomberg 1-10 TIPS ETF
- iShares 7-10 Year Treasury Bond ETF

The Scheme may also invest in similar overseas Exchange Traded Funds which shall have similar investment objective, investment strategy, benchmark. All these details shall be disclosed in the Scheme Information Document in respect of the underlying schemes as and when the scheme invests in such underlying schemes. Also, when a new underlying fund is added, details of underlying fund such as investment strategy, objective etc shall be disclosed by way of a notice cum addendum to Scheme Information Document.

The Scheme will invest in following instruments:

- Debt & Money Market instruments
- Foreign Securities
- Short Term Deposit
- Units of Mutual Fund Schemes.

Investment in overseas securities shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time

The Scheme shall invest in any other instruments as may be permitted by SEBI/RBI from time to time.

Kindly refer detailed definitions and applicable regulations/guidelines for each instruments in the Section II.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

The scheme follows active investment strategy.

The primary investment objective of the Scheme is to provide regular income by investing in units of ETFs where the investment mandate is to invest in US treasury securities across duration.

There is no assurance that the investment objective of the Scheme will be achieved.

The fund of fund will seek to invest in one or a combination of ETFs where the investment mandate of the underlying fund will be to deploy primarily in securities issued by the US government with a residual maturity cap of up to 15 years. The selection of a fund or a combination of funds will be made with the intent to efficiently manage risks associated with such investments and the available market opportunities.

The fund manager may actively deploy across multiple funds to achieve the intended duration profile basis his/her market view. While selecting funds, the fund manager and the AMC will evaluate various fund parameters including but not restricted to fund size, maturity profiles of the fund, fund vintage, and other parameters.

### Portfolio Turnover

As the Scheme will predominantly follow an active investment strategy for investments in the overseas mutual fund, the endeavour will be to minimise the portfolio turnover subject to exigencies and needs of the Scheme. Generally, for the investments in overseas fund, the turnover will be confined to the subscriptions and redemptions (including inter-fund switches, if any) in the underlying overseas fund. However, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

For domestic securities investments, there may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

For details pertaining to Risk Controls and Risk Mitigation refer Point no. C Part I of Section II of the Scheme Information Document.

Please refer the AMC website (<https://www.axismf.com/statutory-disclosures>) for detailed AMC Investments in Scheme(s) of Axis Mutual Fund.

### Part III. OTHER DETAILS

#### A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

Valuation of Foreign Currency / Securities: On the valuation day, all the assets and liabilities denominated in foreign currency will be valued in Indian Rupees. The valuation price of the security will be converted to INR based on FBIL/any other designated agency, reference rate at the close of banking hours in India. If required, the AMC may change the source of determining the exchange rate. The Fund shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However, the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option.

The AMC will calculate and disclose the first NAV of the Scheme within a period of 5 business days from the date of allotment. Subsequently, the NAVs will be calculated and disclosed on all the Business Days.

#### Illustration of Computation of NAV:

The computation of NAV per unit using various components is explained as follows:

Particulars	Amount in Rs
Market or Fair Value of Scheme's Investments .... (A)	10,00,00,000.00
Add: Current Assets including Accrued Income .... (B)	75,34,345.00
Less: Current Liabilities and Provisions. .... (C)	(30,00,000.00)
Net Assets (A+B-C)	10,45,34,345.00

No. of Units outstanding under Scheme on the Valuation Day: 100,00,000

The NAV per unit will be computed as follows: 10,45,34,345.34 / 100,00,000 = Rs. 10.4534 per unit (rounded off to four decimals)

The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI

#### B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationery, bank charges etc.

### C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that following expenses will be charged to the Scheme as expenses as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

Expense Head	% of daily Net Assets

Additional expenses under regulation 52(6A)(c) ^	Upto 0.05%
Additional expenses for gross new inflows from specified cities under regulation 52(6A)(b) #	Upto 0.30%

\*Any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

^The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable.

All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in Regular Plan.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The expenses towards Investment Management and Advisory Fees under Regulation 52(2) and the various sub-heads of recurring expenses mentioned under Regulation 52(4) of SEBI (MF) Regulations can be apportioned under various expense heads/ sub heads without any sub limit, as permitted under the applicable regulations. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52(2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) may be incurred either towards investment & advisory fees and/or towards other expense heads

as stated above.

These estimates have been made in good faith as per the information available to the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations.

The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

The investors will bear the recurring expenses of the scheme in addition to the expenses of other scheme in which Axis US Treasury Dynamic Bond ETF Fund of Fund will make investment.

In accordance with Regulation 52(6)(a) the total expense ratio of the Scheme including weighted average of the total expense ratio levied by the underlying scheme shall not exceed 1.00 per cent of the daily net assets of the Scheme.

Provided that the total expense ratio to be charged over and above the weighted average of the total expense ratio of the underlying scheme shall not exceed two times the weighted average of the total expense ratio levied by the underlying scheme, subject to the overall ceilings as stated above.

The AMC will charge the Scheme such actual expenses incurred, subject to the statutory limit prescribed in the Regulations.

**Expenses charged to the Scheme:**

- A. In addition to the limits as specified in Regulation 52(6) of SEBI (MF) Regulations 1996 or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the Scheme namely-

**Additional expenses for gross new inflows from specified cities**

- a) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI/AMFI from time to time are at least -
- 30 per cent of gross new inflows in the Scheme, or;
  - 15 per cent of the average assets under management (year to date) of the Scheme, whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

Provided further that, expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

# **Note:** Pursuant to SEBI letter dated February 24, 2023 read with AMFI communication dated March 02, 2023, w.e.f March 01, 2023 no additional expense shall be charged on the new inflows received on or after March 01, 2023 from specified cities as per Regulation 52 (6A) (b) till any further guidance is received from SEBI in this regard.

**Additional expenses under Regulation 52(6A)(c)**

- a) additional expenses, incurred towards different heads mentioned under Regulations 52(2) and 52(4), not exceeding 0.05 per cent of daily net assets of the Scheme;

GST payable on investment and advisory service fees ('AMC fees') charged by Axis Asset Management Company Ltd.;

Further, brokerage and transaction costs which are incurred for the purpose of execution of trade shall not exceed 0.12 per cent in case of cash market transactions.

- B. Within the Total Expense Limit chargeable to the scheme, following will be charged to the Scheme:
- GST on other than investment and advisory fees, if any, (including on "Custody Services - GST on Foreign Exchange") shall be borne by the Scheme
  - Investor education and awareness initiative fees of at least 2 basis points on daily net assets of the Scheme.
- C. AMC fees charged by Axis AMC to the scheme will be within the Total Expense Limit as prescribed by SEBI Regulations, as amended from time to time.

The mutual fund would update the current expense ratios on its website ([www.axismf.com](http://www.axismf.com)) on daily basis and notices for any change in the Total Expense Ratio shall be updated on website at least three working days prior to the effective date of the change. Investors can refer 'Total Expense Ratio of Mutual Fund Schemes' section on <https://www.axismf.com/total-expense-ratio> for Total Expense Ratio (TER) details.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars and clarification issued thereon.

#### **Illustration: Impact of Expense Ratio on Scheme's return:**

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate in rupee terms the above, for the Scheme under reference, suppose an Investor invested Rs. 10,000/- (after deduction of stamp duty and transaction charges, if any) under the Growth Option, the impact of expenses charged will be as under:

Sr. No.	Particulars	Regular Plan	Direct Plan
A.	Amount invested at the beginning of the year (Rs.)	10,000	10,000
B.	Returns before expenses (Rs.)	1,500	1,500
C.	Expenses other than the expenses mentioned in 'D' below (Rs.)	50	50
D.	Marketing & Selling expense incl. agent commission (Rs.)	150	0
E.	<b>Returns after expenses at the end of the year (Rs.) [B – (C + D)]</b>	<b>1300</b>	<b>1450</b>
	<b>Returns after expenses at the end of the year (in %) [(E/A) – 1]</b>	<b>13%</b>	<b>14.5%</b>

#### **Note(s):**

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Plan(s) under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- The expenses of the Direct Plan of the Scheme will be lower to the extent of the distribution expenses/commission
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice.

#### **D. LOAD STRUCTURE**

Load is an amount which is paid by the Investor to redeem the Units from the Scheme. This amount is used

by the AMC to pay commission to the distributors and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC ([www.axismf.com](http://www.axismf.com)) or may call at contact number **8108622211** (Chargeable) from 9.00 am to 6.00 pm (Monday to Saturday) or can contact his distributor.

Para 10.4 of SEBI Master Circular For Mutual Funds as amended from time to time has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
<b>Exit Load</b>	For details refer Point no. XI of Part – I of Section I of the Scheme Information Document.

Units issued on reinvestment of IDCW shall not be subject to Load. No load shall be levied on switches between options and sub-options of the Scheme.

The above mentioned load structure shall be equally applicable to the special products such as switches, STP, SWP, etc. offered by the AMC. Further, for switches between the Growth and IDCW Option, no load will be charged by the Scheme. However, for switches between the Plans i.e. between Regular and Direct Plan or vice versa, load will be charged by the Scheme.

Exit load, if any, charged to the investors will be credited back to the Scheme net of GST. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

SEBI Vide Para 10.4 of SEBI Master Circular For Mutual Funds has decided that there shall be no Entry Load for all Mutual Fund schemes.

For any change in Load structure, AMC will issue an addendum and display it on the website/ Investor Service Centres.

Under the Scheme, the AMC/ Trustee reserves the right to change / modify the Load structure if it so deems fit in the interest of smooth and efficient functioning of the Mutual Fund. The AMC/ Trustee reserves the right to introduce / modify the Load depending upon the circumstances prevailing at that time subject to maximum limits as prescribed under the Regulations.

The Redemption Price however, will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

At the time of changing the Load Structure:

1. The AMC shall be required to issue an addendum and display the same on its website immediately;
2. The addendum shall be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Document and Key Information Memorandum already in stock.
3. Latest applicable addendum shall be a part of KIM and SID of the respective Scheme(s).
4. Further, the account statements shall continue to include applicable load structure.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

#### **E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME**

The Scheme shall have a minimum of 20 Investors and no single Investor shall account for more than 25% of the corpus of the Scheme. The aforesaid conditions should be complied with in each calendar quarter on an average basis. In case the Scheme does not have a minimum of 20 Investors on an ongoing basis for each calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would

become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at Applicable NAV. If there is a breach of the 25% limit by any Investor over the quarter, a rebalancing period of one month would be allowed and thereafter the Investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic Redemption by the Mutual Fund at the Applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

**SPECIAL CONSIDERATIONS, if any**

The investors will bear the recurring expenses of the Underlying Fund in addition to the recurring expenses charged by Axis US Treasury Dynamic Bond ETF Fund of Fund.

The Scheme will invest in permissible overseas Exchange Traded Funds in accordance with the provisions of Para 12.19 of SEBI Master Circular for Mutual Funds as amended from time to time and further circulars issued by SEBI from time to time, subject to a maximum of US\$ 300 million per mutual fund or such limits as amended from time to time / RBI, and commensurate with the Scheme objectives,, the limit of 5% of Net Assets and the prohibition of charging of fees shall not be applicable to investments in mutual funds in foreign countries made in accordance with the guidelines as per the above circular. However, management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund shall not exceed the total limit on expenses as prescribed under Regulation 52 (6)(a).

## Section II

### I. Introduction

#### **A. Definitions/interpretation**

For details refer website of Axis Mutual Fund: <https://www.axismf.com/statutory-disclosures>.

#### **B. Risk factors**

##### **Scheme Specific Risk Factors**

###### **Risk factors for a Fund of Funds Scheme**

The Scheme will be investing primarily in units of overseas ETFs that invest in US treasury securities. Hence the Scheme's performance may depend upon the performance of the underlying assets and the relevant ETFs in which the funds invest. Any change in the investment policy or the fundamental attributes of the underlying fund will affect the performance of the Scheme.

Investments in the underlying fund, which is a debt fund, will have all the risks associated with investments in debt and the offshore markets. The portfolio disclosure of the Scheme will be largely limited to the investments made by the Scheme.

###### **Risk Factors for the Underlying Fund**

The performance of the underlying fund will be affected by several risk factors, including the following, some of which have also been disclosed by the underlying fund in its prospectus filed with the appropriate regulatory authorities.

**General Risks:** Past performance is not a guide to future performance and underlying fund where the Scheme has invested may be impacted generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in government policies, taxation laws or any other appropriate policies and other political and economic developments.

The value of investments and the income generated by them may go down as well as up. The fund Currency varies from the Investor's home currency, or where the Fund Currency varies from the currencies of the markets in which the Fund invests, there is the prospect of additional loss (or the prospect of additional gain) to the Investor greater than the usual risks of investment.

**Investment Objective Risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macroeconomic environment, investment objectives may become more difficult or even impossible to achieve. There is no express or implied assurance as to the likelihood of achieving the investment objective for a Fund.

**Regulatory Risk:** The fund is domiciled in Ireland and Investors should note that all the regulatory protections provided by their local regulatory authorities may not apply. Additionally, the Funds will be registered in non-EU jurisdictions. As a result of such registrations the Funds may be subject, without any notice to the shareholders in the Funds concerned, to more restrictive regulatory regimes. In such cases the Funds will abide by these more restrictive requirements. This may prevent the Funds from making the fullest possible use of the investment limits.

**Business, Legal and Tax Risks:** In some jurisdictions the interpretation and implementation of laws and regulations and the enforcement of shareholders' rights under such laws and regulations may involve significant uncertainties. Furthermore, there may be differences between accounting and auditing standards, reporting practices and disclosure requirements and those generally accepted internationally. Some of the Funds may be subject to withholding and other taxes. Tax law and regulations of any

jurisdiction are frequently reviewed and may be changed at any time, in certain cases with retrospective effect. The interpretation and applicability of tax law and regulations by tax authorities in some jurisdictions are not consistent and transparent and may vary from jurisdiction to jurisdiction and/or region to region. Any change in taxation legislation could affect the value of the investments held by and the performance of the Fund.

**Currency risk** – The assets in which the underlying fund is invested and the income from the assets will or may be quoted in currencies which are different from the underlying fund's base currency. The performance of the underlying fund will therefore be affected by movements in the exchange rate between the currencies in which the assets are held and the underlying funds' base currency and hence there can be the prospect of additional loss or the prospect of additional gain to the investors greater than the usual risks of investment. The performance of the underlying fund may also be affected by changes in exchange control regulations.

**Settlement Risks** - Fixed income securities run the risk of settlement which can adversely affect the ability of the underlying fund to swiftly execute trading strategies. Lack of liquidity may adversely affect the ease of disposal of assets.

**Country Risk** – The scheme will invest in US denominated debt issued by the US Government. While the prospects of the US government remain stable today, any geo-political or domestic economic risk could have implications on investments made by the fund and ergo impact investors in the scheme.

**Risks associated with investing in foreign securities/ overseas investments/ offshore securities**

- Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.
- To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

**Risks associated with investments in Fixed Income Securities**

**Interest-Rate Risk:** Fixed income securities such as government bonds, corporate bonds, money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

**Re-investment Risk:** Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

**Basis Risk:** The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

**Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

**Liquidity Risk:** The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

**Liquidity Risk on account of unlisted securities:** The liquidity and valuation of the Schemes' investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

**Credit Risk:** This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

**Settlement Risk:** Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

#### **Risks associated with Segregated Portfolio**

1. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio on recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

### **C. Risk mitigation strategies**

#### **Risk control measures with respect to investment in units of ETFs**

**Market Risk:** The scheme is vulnerable to movements in the prices of US treasury securities invested by the underlying scheme, which could have a material bearing on the overall returns from the scheme. Investments in US treasury securities are subject to price fluctuation on daily basis.

Mitigation - ETFs being passively managed carry lesser risk compared to active management. The underlying ETF scheme(s) where the Scheme intends to invest follow the underlying benchmarks and therefore the level of portfolio volatility would be same as that of the underlying benchmark. The fund manager would also endeavour to keep minimal cash levels to keep performance deviation from the underlying ETF's to minimal.

**Currency Risk:** As the underlying ETFs will invest in US treasury securities which are denominated in foreign currencies, fluctuations in the exchange rates of these foreign currencies may have an impact on the income and value of the underlying ETFs. The repatriation of capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.

Mitigation: The scheme shall have the option to enter into permissible instruments (subject to applicable regulations by SEBI/RBI) for the purposes of hedging against the foreign exchange fluctuations.

**Liquidity Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

Mitigation- The Scheme will invest in units of the underlying scheme which will invest in US treasury securities and the liquidity risk for these units / securities will be relatively low.

#### **Risk control measures with respect to Debt Investments – i.e investment in Debt, Money Market Instruments.**

**Market Risk / Interest Rate Risk:** Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. The price movement up and down in fixed income securities will lead to possible movements in the NAV.

Mitigation - In a rising interest rates scenario the Scheme / underlying scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

**Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).

Mitigation- The Scheme / underlying scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds.

**Credit risk or default risk:** It refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Mitigation- Apart from the basic examination, management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower.

## **II. Information about the scheme:**

#### **Details of SPDR® Bloomberg U.S. TIPS UCITS ETF (Dist)**

<b>Fund Name</b>	SPDR® Bloomberg U.S. TIPS UCITS ETF (Dist)
<b>Investment Objective</b>	The objective of the Fund is to track the performance of the U.S. inflation-linked government bond market (otherwise known as Treasury Inflation Protected Securities, or "TIPS").
<b>Investment Strategy</b>	<p><b>Investment Policy</b> The Fund seeks to track the performance of the Bloomberg U.S. Government Inflation-Linked Bond Index (the "Index") as closely as possible. The Fund is an index tracking fund (also known as a passively managed fund). The Fund invests primarily in securities included in the Index. These securities includes U.S. inflation-linked investment grade (high quality), or higher, government bonds. As it may be difficult to purchase all securities in the Index efficiently, in seeking to track the performance of the Index the Fund will use a stratified sampling strategy to build a representative portfolio. Consequently, the Fund will typically hold only a subset of the securities included in the Index. The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently. Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. However, shares of the Fund may be purchased or sold through brokers on one or more stock exchanges. The Fund trades on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund. The Fund's maximum exposure to securities lending as a percentage of its Net Asset Value will not exceed 70%. Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on <a href="http://www.ssga.com">www.ssga.com</a>); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days. Any income earned by the Fund will be paid to shareholders in respect of the shares. The Shares of the USD Class are issued in U.S. Dollar. Please refer to the Prospectus for more information. The Scheme will also invest in Debt Instruments, Money Market Instruments and other permitted securities subject to regulatory approvals, if any, which will include but not limited to:

### **Debt Instruments & Money Market Instruments**

#### **Certificate of Deposit (CD)**

Certificate of Deposit (CD) is a negotiable money market instrument issued by scheduled commercial banks and select all-India Financial Institutions that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the Banks is between 7 days to one year, whereas, in case of FIs, maturity is one year to 3 years from the date of issue.

#### **Commercial Paper (CP)**

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and all India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity.

#### **Treasury Bill (T-Bill)**

Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 14 days, 91 days, 182 days and 364 days. The Scheme may also invest in Cash Management Bill (CMB) issued by the Government of India to meet their short term borrowing requirements. CMB are generally issued for maturities of less than 91 days.

#### **Commercial Usance Bills**

Bill (bills of exchange/promissory notes of public sector and private sector corporate entities) Rediscounting, usance bills and commercial bills.

#### **Repos**

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. Presently in India, Government Securities, State Government Securities and T- Bills are eligible for Repo/Reverse Repo.

Tri-party repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction.

The Scheme may undertake repo or reverse repo transactions in accordance with the directions issued by RBI and SEBI from time to time. Such investment shall be made subject to the guidelines which may be prescribed by the Board of Directors of the Asset Management Company and Trustee Company.

**Securities created and issued by the Central and State Governments** as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State

Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

### **Non -Convertible Debentures**

Non convertible debentures are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, Public and private sector banks, all India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. These instruments may have fixed or floating rate coupon. The Scheme may also invest in the non convertible part of convertible debt securities.

### **Foreign Securities**

The Scheme shall invest only in Overseas ETFs investing in securities in terms of Para 12.19 of Master Circular for Mutual Fund as amended from time to time. The Fund Manager may invest in any other security as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

### **Debt and Money Markets in India**

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market, consists of G-Sec outstanding of Rs. 80,86,643.177 cr as on Feb 17, 2022 (State Govt securities - Rs 38,31,895.100 cr, (as on Feb'21) Source: CCIL), is the oldest and the largest component (50% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call
- Tri Party Repo
- Repo/Reverse Repo Agreement
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / DFI / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest on the back of comfort from majority government holding. Highly rated

manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing on September 30, 2024 on some of the instruments and further illustrates this point.

<b>Instrument</b>	<b>Current Yield range (%)</b>
Tri-party Repo	6.50-6.60
Repo	6.50-6.60
3M T-bill	6.65-6.70
1Y T-bill	6.50-6.55
10Y G-sec	6.75-6.80
3m PSU Bank CD	7.00-7.10
3m Manufacturing co. CP	7.20-7.25
1Y PSU Bank CD	7.50-7.55
1Y NBFC CP	7.80-7.85
1Y Manufacturing co. CP	7.60-7.65
5Y AAA Institutional Bond	7.35-7.40
10Y AAA Institutional Bond	7.20-7.25

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

## **B. What are the investment restrictions?**

Pursuant to Regulations, specifically the Seventh Schedule and amendments thereto, the following investment restrictions are currently applicable to the Scheme:

1. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC.

Provided that such limit shall not be applicable for investment in Government Securities, treasury bills and tri party repo on government securities.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt, Money market instruments and / or units of liquid schemes shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

2. In accordance with the Para 12.8.3.1 of SEBI Master Circular for Mutual Fund as amended from time to time, the scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of CRAs between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating. Exposure to government money market instruments such as TREPS on G-Sec/ T-bills shall be treated as exposure to government securities.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt, Money market instruments and / or units of liquid schemes shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

3. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments:

Provided that the Scheme may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that the Scheme shall comply with the norms under this clause within the time and in the manner as may be specified by the Board:

Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by the Board from time to time.

Further the investments by the Scheme shall be in compliance with Para 12.3 of SEBI Master Circular for Mutual Fund and as amended by SEBI from time to time.

Note: According to the Asset Allocation of the Scheme, the indicative allocation of the Scheme to Debt, Money market instruments and / or units of liquid schemes shall be in the range of 0% to 5% of the net assets of the Scheme, subject to conditions specified.

4. As the scheme is a fund of fund scheme, it shall be subject to the following investment restrictions:

- (a)
- (b) The Scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the given Scheme Information Document.

5. The Scheme shall not invest in any other fund of funds scheme;

6. The Mutual Fund shall get the securities purchased transferred in the name of the Fund on account of the concerned Scheme, wherever investments are intended to be of a long-term nature.

7. Transfer of investments from one scheme to another scheme in the same Mutual Fund is permitted provided:

- a) such transfers are done at the prevailing market price for quoted instruments on spot basis (spot basis

- shall have the same meaning as specified by a Stock Exchange for spot transactions); and
- b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Further, inter scheme transfers shall be in accordance with the guidelines issued by Para 12.30 of Master for Mutual Funds as amended from time to time.

8. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.

9. Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by Para 12.16 of SEBI Master Circular for Mutual Funds.

The Scheme will comply with the following guidelines/restrictions for parking of funds in short term deposits:

- i. "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- ii. The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- iii. Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- v. The Scheme shall not park funds in short term deposit (STD) of a bank which has invested in that Scheme. Further Trustees/ AMCs shall also ensure that the bank in which the Scheme has STD do not invest in the said scheme until the Scheme has STD with such bank.
- vi. The AMC will not charge any investment management and advisory fees for funds parked in short term deposits of scheduled commercial banks.

However, the above provisions will not apply to term deposits placed as margins for trading in cash market.

10. The Scheme shall not advance any loans.

11. The Scheme shall not borrow except to meet temporary liquidity needs of the Scheme for the purpose of repurchase/redemption of Units or payment of interest and/or IDCW to the Unit holders.

Provided that the Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

12. The Mutual Fund/AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in TREPS before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in TREPS during the NFO period. The appreciation received from investment in TREPS shall be passed on to investors.

Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in TREPS shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

The exposure limit/ investment restrictions prescribed under the Seventh Schedule of the Regulations and circulars issued there under (wherever applicable) shall be applicable to repo transactions in corporate

bonds.

13. Investment in Partly Paid Debenture, if undertaken, will be subject to a cap on maximum investment of Mutual Fund Scheme at 5% of the AUM of the scheme. However, once the Partly Paid Debentures are fully paid up, the cap on maximum investment of Mutual Fund Scheme at 5% of the AUM of the scheme will not apply.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the fund may follow any internal norms vis-à-vis limiting exposure to a particular scrip or sector, etc.

All the investment restrictions will be applicable at the time of making investments.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

The Pledger will not be able to redeem Units that are pledged until the entity to which the Units are pledged provides written authorisation to the Mutual Fund that the pledge / lien charge may be removed. As long as Units are pledged, the Pledgee will have complete authority to redeem such Units. IDCW declared on Units under lien will be paid / re-invested to the credit of the Unit Holder and not the lien holder unless specified otherwise in the lien letter.

#### **Lien on Units**

On an ongoing basis, when existing and new Investors make Subscriptions, a lien on Unit allotted will be created and such Unit shall not be available for redemption until the payment proceeds are realised by the Scheme. In case a Unit holder redeems Unit soon after making purchases, the redemption cheque will not be dispatched until sufficient time has elapsed to provide reasonable assurance that cheques or drafts for Unit purchased have been cleared.

In case the cheque / draft is dishonoured by the bank, the transaction shall be reversed and the Units allotted earlier shall be cancelled, and a fresh Account Statement / Confirmation slip shall be dispatched to the Unit holder. For NRIs, the Scheme may mark a lien on Units in case documents which need to be submitted are not given in addition to the application form and before the submission of the redemption request. However, the AMC reserves the right to change operational guidelines for lien on Units from time to time.

#### **Suspension/Restriction on Redemption of Units of the Scheme**

Subject to the approval of the Boards of the AMC and of the Trustee and subject also to necessary communication of the same to SEBI, the redemption of / switch-out of Units of Scheme, may be temporarily suspended/ restricted. In accordance with Para 1.12 of SEBI Master Circular on Mutual Funds as amended from time to time and subject to prevailing regulations, restriction on/suspension of redemptions / switch-out of Units of the Scheme, may be imposed when there are circumstances leading to systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

- a) **Liquidity issues:** when market at large becomes illiquid affecting almost all securities rather than any issuer specific security;
- b) **Market failures, exchange closures:** when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies;
- c) **Operational issues:** when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).

Restriction on / suspension of redemption of Units of the Scheme may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

When restriction on / suspension of redemption of Units of the Scheme is imposed, the following procedure shall be applied

No redemption / switch-out requests upto Rs. 2 lakhs shall be subject to such restriction.

Where redemption / switch-out requests are above Rs. 2 lakhs, the AMC shall redeem the first Rs. 2 lakhs without such restriction and remaining part over and above Rs. 2 lakhs shall be subject to such restriction.

	<p>In addition to the above, the AMC / Trustee may restrict / suspend redemptions / switch-out of Units of the Scheme pursuant to direction/ approval of SEBI.</p> <p>In case of any of the above eventualities, the general time limits for processing requests for redemption of Units will not be applicable.</p> <p>Also refer to the paragraph 'Suspension of Purchase and Redemption of Units' in the Statement of Additional Information.</p>
